The advantage of two technologies

- Hybrid technology combines the aerodynamics of flat bar wipers and the perfect contact with the windshield of traditional wiper technology.
- Fits almost all vehicles due to a universal mount for all special adapters
- Excellent wiping result even at high speed due to increased contact pressure of both technologies and spoiler -Stilish design provides a form-fitting appearance due to HOOK Cover for HYBRID base
- Even suitable for winter due to waterproof plastic cover
- Wiping performance of the rubber as permanently streak-free tested by Detroit Testing Laboratory, Inc. U.S.A. confirms a consistent wiping result even after 1,500,000 movements
- Continuous running performance and functionally safe assembly successfully tested by TÜV Rheinland (2012)
- Wiper rubber is even more flexible and durable due to NANO coating.

DIE BESTEN SCHEIBENWISCHER

Bin vom Hersteller Bosch zu Heyner gewechselt und bereue es nicht im geringsten.
Meiner Meinung nach die qualitativ besten Scheibenwischer auf dem Markt.
Die Hybrid Scheibenwischer kann ich jedem nur empfehlen.
